EDUCATION

Singapore Institute of Technology – DigiPen Institute of Technology *Aug 2024 - Present*

Bachelor of Science in Computer Science in Interactive Media and Game Development

- Core subjects: Software Engineering Project(s), Probability and Statistics, System Design Methods

Nanyang Polytechnic

Apr 2023 - Apr 2024

Specialist Diploma in Information Systems Development

- Core subjects: Design Thinking, Agile Software Development Process, Advanced Topics in Software Development

Nanyang Polytechnic

Apr 2020 - Apr 2023

Diploma in Infocomm & Security

- Core subjects: Data Analysis & Visualisation, Principles of User Experience (UX) Design, Software Engineering

TECHNICAL SKILLS

Programming Languages: C++, Python, HTML/CSS, JavaScript, C, C#

Frameworks & Web Technologies: Angular, Ionic, Node.js, Chart.js, OutSystems

Data Analytics & Databases: MySQL, Tableau, Microsoft Power BI, KNIME

Developer Tools & Platforms: Git, Jira, Figma, Linux, Windows, VMware, Azure DevOps

EXPERIENCE

Techno-Functional Business Analyst | Accenture

Mar 2023 - Jun 2024

- Spearheaded User Acceptance Testing (UAT) by leading a 10+ member Philippines team, using Tango to map workflows and guarantee 100% client readiness.
- Facilitated in-person UAT sessions for eight clients and presented consolidated feedback to technical teams, accelerating defect resolution to drive UAT pass rates from 20% to over 90%.
- Resolved an average of three to four external maintenance tickets daily utilizing the OutSystems platform, consistently achieving same-day turnaround to ensure continuous system stability.

Business Analyst Intern | Accenture

Nov 2022 - Feb 2023

- Refined user stories and process flows using MIRO, Excel, and Figma, rapidly implementing client feedback to align system builds and drive higher UAT pass rates.
- Executed rigorous System Integration Testing (SIT) by engineering targeted test data and vetting step-by-step cases, accelerating the Quality Assurance (QA) team's preparation for final UAT.
- Demystified a highly complex equipment module by authoring step-by-step training manuals and leading dedicated onboarding sessions, ensuring seamless feature adoption for the internal team.

PROJECTS

Project Manager & Audio Programmer | The Unraveling (Sodium Custom Engine) *Sep 2025 - Apr 2026*

- Managed cross-disciplinary teams by centralizing workflows in Notion, seamlessly aligning technical and design efforts to achieve a 100% on-time milestone submission rate.
- Directed rigorous playtesting and UAT phases prior to major milestone deliveries, tracking and resolving over 40 technical regressions to guarantee a highly stable game build.
- Engineered a dynamic C++/C# spatial audio system via FMOD, implementing Digital Signal Processing (DSP) crossfading and custom low-pass filters to elevate gameplay immersion.
